PermiTrack$_{AIR}$

The web-based home for your NPDES stormwater permit.

Looking for an easier way to track your hazardous emissions? Make tracking and reporting easy with **MyPermiTrack.com** web-based emissions tracking system, **PermiTrack$_{AIR}$**. The days of labor-intensive, expensive and often frustrating efforts to assemble the report can be replaced with a system that lets subscribers' access information and submit a report with a few clicks of the mouse - virtually from anywhere you have an Internet connection.

PermiTrack$_{AIR}$ is your solution for hazardous emissions tracking. Though there are many agencies that let you report your annual emissions online, this does not meet the minimum requirements of air emissions reporting. Tracking data is also a critical component to permit and regulatory compliance. **PermiTrack$_{AIR}$** allows you to manage your permitting data tracking needs and delivers on-demand calculations and reporting.

Features and Benefits of PermiTrack$_{AIR}$

- Data tracking and analytics across facilities, by asset, process, sources, equipment, substances, SCC and more
- Web-based technology – no investment in software or hardware needed
- Regulated, secure access anywhere there is an internet connection
- Periodic and annual report generation at the press of a button
